DAY 2 Wednesday (B,L,D)

More than 8000 koalas are feared to have perished in NSW alone since the beginning of the bushfire crisis in September. The bushfires in and around Port Macquarie in November, devastated the genetically diverse koala population with as many as 350 koalas killed and approximately 75% of the fireground footprint being prime koala habitat. Today we visit the **Port Macquarie Koala Hospital** who have raised more than \$6 million and are using the funds to distribute automatic drinking stations to burnt areas, sharing the funds with other wildlife organisations in fire affected regions, and establishing a wild koala breeding program. In this very **special guided visit** we meet some of the patients and their amazing caregivers before donning our gardening gloves. To aid in the recovery of the koala population it's time to get planting as we help to re-establish the hospital's 253 acre plantation of recognised **koala food trees**.

DAY 3 Thursday (B,L,AT,D)

We start today making the short drive south to **Tacking Point Lighthouse** which was built in 1879, sits atop a rocky headland, and showcases panoramic views of the Mid-North Coast. We then take in a visit to the **Glasshouse Regional Gallery** which features contemporary, indigenous, historical, and traditional artworks. After lunch we enjoy a slow and **scenic river tour** up the **Hastings River** and into **Limeburners Creek**. Our flat bottomed boat allows us to meander amongst the oyster farms and enjoy the wildlife along the shore, in the sky and in the water.

DAY 4 Friday (B,MT,L)

This morning we start making tracks for home breaking in picturesque **Coffs Harbour** for morning tea, and then continuing on to historic **New Italy**. After lunch in the café there's time to discover the **museum complex** which is dedicated to the original Italian farmers who settled in the area. We return to **Brisbane** later in the afternoon.
